

Dated 23 June 2020

Dear Editor,

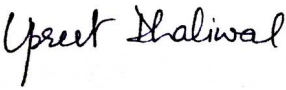

This is to confirm that the article entitled “**Perception of specialist doctors on the ability of doctors with color vision deficiency to practice safely in their specialty**” submitted to the Indian Journal of Medical Ethics is original and has been co-authored by the undersigned. All authors have participated in the work sufficiently to meet the ICMJE guidelines for authorship. All have read and approved the manuscript.

The submission is not under consideration for publication in any other journal.
We give consent to Dr Upreet Dhaliwal to act as the author for correspondence.

Details of sponsorship or relevant competing interests, financial or otherwise: none

Conflict of Interest: Dr Upreet Dhaliwal has first degree relatives with congenital color vision deficiency. They are not medical practitioners. Their non-medical career choices, in their own words, were not influenced by the CCVD, but were dictated by their areas of interest.

We have read the terms and conditions of authorship of IJME and accept them.
