

Dear Editor,

This is to confirm that the article entitled “**Governing Air Pollution and Risk: An inquiry of Delhi’s air pollution governance and risk tolerance**” submitted to the *Indian Journal of Medical Ethics* is original and has been co-authored by the undersigned. All authors have participated in the work sufficiently to meet the ICMJE guidelines for authorship. All have read and approved the manuscript.

The submission is not under consideration for publication in any other journal.

We give consent to **Ms. Garima** to act as the author for correspondence.

Details of sponsorship or relevant competing interests, financial or otherwise:

This research paper is developed under Centre for Environment Health Fellowship awarded by School of Habitat Studies, Tata Institute of Social Sciences, Mumbai, India to Ms. Garima

We have read the terms and conditions of authorship of IJME and accept them.

We feel it is suited to a medical ethics journal because: in up to 100 words)

Air Pollution in Delhi has intensified over the years and emerged as a health emergency. The research paper focuses on this ‘health risk’ arising due to Air Pollution and discusses the risk governance process that has taken place in Delhi. Since this research Journal of medical ethics promotes multi-disciplinary inquiry and thus we found it appropriate to send our research article for publication in this journal.
