

Dear Editor,

This is to confirm that the article entitled “—Understand healthcare Economics---” submitted to the Indian Journal of Medical Ethics is original and has been authored by the undersigned.

The submission is not under consideration for publication in any other journal. But pl. see my note below.

Details of sponsorship or relevant competing interests, financial or otherwise: There are no financial or any sponsorship interest involved.

I have read the terms and conditions of authorship of IJME and accept them.

I think my paper is suitable for publication in an ethics journal because: -it enlightens the readers about how the economics of healing works and how rising costs can be curbed. It also shows a way how to make everyone COST-CONSCIOUS. WITHOUT WHICH COSTS CANNOT BE REDUCED.

NOTE—It is true that this is not for publication anywhere-so far. BUT I wish that this is widely circulated. I am going to try to send Marathi version to Maharashtra Times, and would also try to get it published in English news papers like Times or Indian express. (so far I have ALWAYS failed.)

I HAVE ABSOLUTELY no objection if IJME would send it or claim its rights etc. I FEEL IF THE IDEA OF “ COST ANALYSIS AND A Bill (cost-estimate) is given to patients” in public hospitals, especially from medical college Hospitals, it will REVOLUTIONISE the healthcare system and bring down THE COSTS AS WELL AS IMPORTANCE OF MODERN HIGH TECHNOLOGY to its proper size.

How it can be done “LEGALLY” you know best. With regards,
